

DISPOSABLE

Micro Applicators

Disposable Micro Applicators are designed for precise placement of dental materials such as, bond, etch, cavity liners, hemostatic agents, sealants and disclosing solutions. The non-linting, non absorbent fibers suspend material without dripping, minimizing waste.

FEATURES & BENEFITS

- Applicators bend easily for accurate placement of solution in hard to reach areas.
- Non-linting
- Non-absorbent fiber tips hold solution in suspension until applied
- The applicators come in convenient plastic tubes for easy dispensing
