

Introducing!

Premier® Universal Primer

Zirconia and Glass Ceramics, Metal
and Composite Primer

New Premier® Universal Primer, a Dental Advisor 'Preferred Product,' is a single-component adhesive primer that increases the retention between restorative substrates and resin cements. The primer contains dual coupling agents, 10-MDP and silane methacrylate for increased bond strength to zirconium, alumina, glass-ceramics, metal alloys and composites. Premier Universal Primer is easy to use and because no pretreatment of the restoration is required, you can complete the cementation procedure quickly and efficiently. Premier Universal Primer improves adhesion, saves time in your workflow and helps you deliver long-term clinical success. Every time.

new! Premier® Universal Primer

Zirconia and Glass Ceramics, Metal and Composite Primer

- ✓ Ideal retention for zirconia, alumina, metal, glass ceramics + composite materials
- ✓ Dual coupling agents provides versatility and work with all substrates
- ✓ Easy to use - just apply, wait 60 seconds, and dry
- ✓ No pretreatment of restoration required
- ✓ Can be used with adhesive and self-adhesive resin cement to achieve maximum bond strength for cases that require additional retention (e.g. short and/or over tapered preparations).

3001568 Premier® Universal Primer - 5ml

new! ZR-Cem™

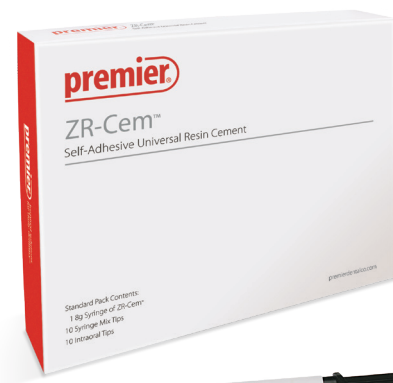

Self-Adhesive Universal Resin Cement

A better zirconia cementation solution is here!
Latest Technology = Better Patient Experience

- ✓ Innovative MDP formula enhances adhesion and bond to zirconia substrates
- ✓ Lasting color stability
- ✓ Virtually no post-operative sensitivity ensures patient comfort

Easy to use

- ✓ No pre-treatment is necessary, just dispense the cement and seat the restoration
- ✓ Dual-cured with optimal viscosity, easy handling and a fast & easy clean-up
- ✓ Room temperature storage — no need for refrigeration

Standard Pack

1 - 8g syringe, 10 mix-tips and 10 intraoral tips

3001560 Shade Opaque White

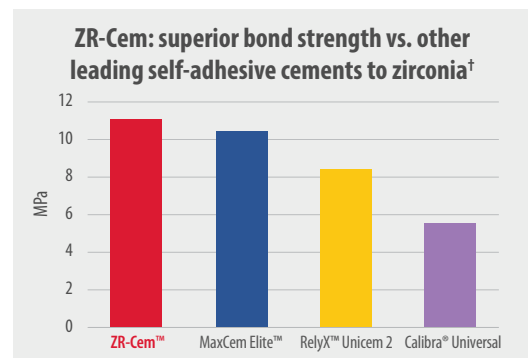

3001561 Shade A2

3001562 Shade Translucent

Refill Tips

3001418 35 mix-tips & 35 intra-oral tips
