

# See-through Self Seal Sterilization Pouches

- **Built-In Internal Indicator**  
For Steam Process - to ensure the proper temperature is reached inside of the pouch.
- **Complete Film/Paper Separation**  
Clean separation (peeling) of the 4-ply See-thru film from the medical grade paper maintains sterility of contents until their use.
- **External Indicators**  
Easy to read "Color Changing Indicators" printed on each pouch assuring proper sterilization process by Steam and by Ethylene Oxide.
- **Blue Tinted Transparent Film**  
For easier identification of contents and possible punctures by contrast of color.

- **Triple Seal & Heat Processed**  
For a seal that is consistent and strong which eliminates shattering and tearing.
- **Wide Self-Seal Adhesive Strip**  
Easy-seal flap to ensure the integrity of contents after sterilization process.
